```
# Resume Sampler

A simple resume builder that runs in the browser. Fill in the form, see a live preview, switch templates,
     and save as PDF.

## Features
- Live resume preview
- Classic and Modern templates
- One-click sample data
- Download as PDF (browser print)
- No dependencies, no build step

## Run
Open `index.html` in any browser.

## Project Structure
```
resume-sampler/
|-- index.html
|-- style.css
|-- script.js
`-- README.md
```

## Upload to GitHub
```bash
cd resume-sampler
git init
git add .
git commit -m "Initial commit: resume sampler"
git branch -M main
git remote add origin https://github.com/<your-username>/resume-sampler.git
git push -u origin main
```

## License
